

/home/clemente/projects  
/Troll-Killers/Configuration.hpp

```
graph TD; A["/home/clemente/projects  
/Troll-Killers/Configuration.hpp"] --> B["stdio.h"]; A --> C["string.h"];
```

The diagram illustrates a file inclusion relationship. At the top, a gray rectangular box contains the file path `/home/clemente/projects/Troll-Killers/Configuration.hpp`. Two blue arrows originate from the bottom center of this box and point downwards to two separate white rectangular boxes. The left box contains the text `stdio.h` and the right box contains the text `string.h`. This visualizes the `Configuration.hpp` file including both `stdio.h` and `string.h`.

`stdio.h`

`string.h`
